Health & Safety Signs  
Version 19

## Choose the right material for your needs

### Self Adhesive

A flexible gloss PVC with a permanent adhesive backing. For a strong bond apply to a smooth and clean interior or exterior surface. This material is best used indoors.

### Rigid Plastic

1mm thick rigid PVC for interior or exterior use. Can be drilled and fixed to a wide range of surfaces.

### Photoluminescent

Glow in the dark signs ideal for fire exit signs and fire equipment signs.

### Rigid Plastic with a self adhesive backing.

1mm thick rigid PVC with self adhesive backing for interior use on smooth surfaces.

### Photoluminescent self adhesive

Glow in the dark signs ideal for fire exit signs and fire equipment signs. Complete with a self adhesive backing ideal for internal use on smooth surfaces.

### Composite Board

3mm resin core with a white aluminium face this is strong and rigid ideal for external or internal use.

### 3mm Foam PVC

Mainly used for double sided signs, durable and lightweight, but can be used for internal or external work

### Zintec

1mm thick steel sheet which is zinc coated ideal for external temporary signage.

### Traffic Signs Plate Only

Class 1 reflective mounted on 3mm aluminium plate. Ideal for fixing to walls.

### Traffic Signs with Sign Fix

Class 1 reflective mounted on 3mm aluminium plate. Designed to fix to all sizes of posts.

## Choose the correct size sign for viewing distance (approx. max distance)

This is to be used as a guide only.

## How to order

- 1 Select the sign you need by choosing the code below the sign e.g MAP.01
- 2 Select the size you need, the sign sizes available are shown under each sign e.g. 450mm x 600mm.
- 3 Select the material required e.g. Rigid plastic

MAR01B - 450x600  
MAR01C - 300x400

# Photoluminescent Fire Exit Signs

## Escape Route Fire Exit Signs

These photoluminescent signs have excellent brightness even in total darkness, giving highly visible instructions in the event of an evacuation.

Signs on these pages are available in 1mm photoluminescent rigid plastic and 1mm photoluminescent self adhesive rigid plastic. All sizes are shown with width first.

If you require a custom made sign please see page 45 - 47.

# Dog Fouling Signs and Glass Safety

## Dog fouling Signs

If a dog defecates at any time on designated land, the person in charge of the dog must remove the faeces from the land. The maximum penalty at present is £1000. Some local authorities may choose a lower penalty as they see fit. The signs are available in self adhesive vinyl, rigid plastic or composite board (This material is 3mm thick and has a resin core and an aluminium white face, it is strong and rigid and can be cable tied to posts. Aluminium composite boards are pre drilled and come complete with two heavy duty ties.

These signs can be made to your own specifications complete with logo and your wording. Please contact our sales team to discuss your requirements.

								<b>This bin is for dog waste only</b>  <b>Clean up after your dog</b>

# Posters

## Health & Safety Law Poster

HSE12- 425x600 Laminated

Every workplace is required to display a Health and Safety at Work Law Poster within their workplace. Failure to display Health and Safety at Work Law Poster or to provide the details to employees is an offence under the Health and Safety at Work Act 1974. This is the completely new updated and revised HSE Health and Safety at Work Law Poster, which should replace any of the older (pre 2009) versions.

Abrasion & water resistant  
0.4mm plastic

P5001 420mm x 595mm

## Health & Safety Posters

High visual posters with step by step instructions for dealing with the most common workplace emergencies.

These posters are printed on abrasion resistant / wipe down plastic with full instructions and ideas for first aiders and non first aider alike.

Dementia Signs are designed to help people find their way around a care home or even their own home. These signs can help to reduce the feeling of isolation and disorientation that those with Dementia can have. Safety is also improved as it helps those people with dementia to get to where they want to be easier, thus resulting in less falls and accidents and helping prevent them going into areas they shouldn't be in unsupervised.

Correct use of Dementia signs can help to give sufferers a far greater sense of independence due to being able to find their way around easier, and also boost self confidence and sense of well being.
